THIS IS UNEVALUATED INFORMATION

1. The roller bearing factories and assembly plants were required to report their requirements for scaled and drawn bar steel and for ball bearing steel in conformity with their 1955 first quarter production program. The following list shows that the necessary requirements for the fulfillment of the VM (Volkswirtschaft) plan were greater than the material granted:

	<u>required</u>	<u>allotted</u>	
Leipziger Kugellagerfabrik DKF			tons
Boehlitz Ehrenberg	400	382	
Waelzlagerfabrik Fraureuth	205	182	
" " Berlin-Lichtenberg	294	266	
" " Ronneburg	70	65	
Waelzkoerperfabrik Bad Liebenstein	590	392	and 140 tons import
Thueringer Kugellagerfabrik Zella-Mehlis	440	382	
	1999	1669	and 140 tons import

2. To fulfill the quota allotment, the Ziehwerk Delitzsch has only a scaling capacity of 650 tons for the first quarter of 1955. Other scaling capacities exist at the VEB Leipziger Kugellagerfabrik DKF Boehlitz Ehrenberg and VEB Grossdrehmaschinenbau 8 May, in Chemnitz. For these latter two a scaling capacity of 200 tons is available but much of this capacity is used for the needs of the factories themselves.
